Sir:

In response to the Official Action of December
21, 2001, please amend the above-referenced patent appli-
cation as follows:

In the claims:

Please replace the claim 1 with the following
new claim:

- 1 --1. (AMENDED) A tool for use with a manually
2 operable material removing apparatus having a power
3 driven output shaft arranged to oscillate about a prede-
4 termined axis, comprising:
5 an elongated member having a first section arrang-
6 ed to be mounted on said output shaft so that the member
7 extends in a direction at least substantially normal to
8 said predetermined axis, and

9 a second section remote from said first section
10 and including at least one at least substantially
11 straight cutting edge at least substantially normal to
12 said direction.--.
